

Barbara Harriman, IIDA

President / Creative Director

Personal Statement:

Every creative project has its own personality and energy created by those ardent about the project's outcome. Creating a successful, evidence based, facility oriented and patient appropriate art program means becoming a part of this energy, and that is my passion. Identifying the uniqueness of each facility and guiding the art program along a creation path that visually interprets this individuality is one my favorite roles as the creative director. Exceeding your expectations comes in a close second.

Professional Background:

Multi discipline experience including Healthcare Art Consulting, Commercial Architecture and Interiors, Construction Administration, Lighting Design and Mechanical and Electrical Engineering exposure.

Healthcare Art Consulting Experience:
